

ERASysBio 2nd Transnational Call for Collaborative Research Proposals

The consolidation of systems biology research- stimulating the widespread adoption of systems approaches in biotechnology, biomedicine and agri-food

National Annex: Luxembourg - FNR

Partner: National Research Fund, Luxembourg

FNR supports the ERASysBio 2nd Call for Proposals and encourages its systems biology research community to apply for funding for collaborative research in the European Research Area. Subject to all conditions of eligibility and peer review being fully met, the budget earmarked by the FNR for this call will be up to €1 million. The national call announcement for Luxembourg will be published on the FNR website (www.fnr.lu). Applicants are strongly advised to contact the FNR before preparing proposals for application.

Specific priorities for Collaborative Research Proposals

Under this 2nd Call, the FNR will fund all areas of its remit.

Eligibility and national funding modalities

The University of Luxembourg, the public research centers, the CEPS/INSTEAD and public bodies, services and establishments authorised to undertake research and development and technology transfer activities are eligible to apply for funding at the FNR. Full details of eligibility conditions can be found on the FNR website www.fnr.lu. It is expected that applications submitted to this call will be Collaborative Research Proposals as defined in and following the guidelines of the call main document (www.erasysbio.net/AnnouncementCall). FNR will fund the Luxembourg partner of any successful transnational collaboration.

Specific national regulations and guidelines

PhD students are not funded as part of a standard collaborative research proposal but funding may be applied via the AFR scheme (www.fnr.lu).
